

Board to End All Building Trade Wars

Continued from page 1

claimed by more than one building trade. This plan is intended to operate between union workmen and the employers thereof.

"Article 1—There is hereby created for this purpose a board which shall be known as the National Board for Jurisdictional Awards in the Building Industry.

To Investigate and Make Awards
"Article 2—The board shall have the power to investigate all disputes and to make awards with its findings.

"Article 3—All complaints must be submitted to the board in writing by the party or parties in interest through the officials of an organization which is a party to this agreement, stating clearly the exact nature of the work in contention, and they shall have the right to submit, through such persons as they may select, all evidence or arguments they may consider pertinent, in which case a hearing shall be given at the next meeting and an award shall be made after the hearing of the evidence.

"Article 4—When a dispute arises the employer to whom the work has been given shall proceed with such workmen as in his judgment he may see fit to employ, pending a decision by the board, but the right of any contestant to the dispute shall not be prejudiced in its claim for a final award.

No Sympathetic Strikes

"Article 5—Each signatory to this agreement hereby agrees that the membership of that organization shall not take part in sympathetic strikes in any case of jurisdictional dispute. Local organizations signatory to this agreement shall secure the enforcement and compliance of their organizations with the provisions of this agreement and the awards of the board. Local organizations refusing compliance with the provisions of this agreement and the awards of this board shall be suspended from their international organization, and the international organization shall proceed at once to man the job and the employer shall cooperate with the international organization in so doing.

"Any architect, engineer or employer represented on this board through an organization signatory to this agreement shall be suspended from his organization or organizations upon failure to comply with the provisions of this agreement and the awards of this board.

Members of the Board

"Article 6—The board shall consist of eight members, three to be selected by the building trades department of the American Federation of Labor, they to be international officials, and one each by the American Institute of Architects, the Engineering Council, the Associated General Contractors of America, the National Association of Builders' Exchanges and the National Building Trades Employers' Association.

"Article 7—Each member, if unable to serve, shall select a substitute in his stead.

"Article 8—Not more than one mem-

ber shall be elected by the building trades department of the A. F. of L. from the same trade.

"Article 9—The duties of the board shall be to hear claims for jurisdiction over work performed by building trades, and to determine by which trade the work in contention shall be performed and to make an award in conformity with the facts submitted by the contestants. At least a two-thirds majority of the voting members of the full board shall be required to render an award in all cases.

Committees to Investigate

"Article 10—The board may appoint committees composed of its members to investigate any case brought to its attention. The report of such a committee shall be made to the board within thirty days from date of appointment.

"Article 11—Should the board fail to make an award an umpire may be agreed upon whose findings shall be final. Should the board, by a two-thirds majority, be unable to agree upon an umpire, the secretary of the United States Department of Labor shall be called upon to name the umpire.

"Article 12—Awards by the board may be reopened and reheard upon the submission of new evidence at the request of any of the parties in interest, provided that at least six members of the board vote favorably on allowing a rehearing. Pending a rehearing the award made shall remain in force and effect.

"Article 13—No member representing the building trades department shall vote on an award in a dispute in which his own craft is involved, nor shall any member employing one trade exclusively vote on any award in which that trade is a party at interest.

"Article 14—The board shall certify its award to the officials of each of the organizations parties thereto.

Guide in Making Contracts

"Article 15—It shall be the duty of the officials, upon receiving such information, to instruct its members to carry out the decisions of the board and to use them as a guide in the conduct of their work.

"Article 16—The decisions shall govern the architects and engineers in writing specifications and the contractors in awarding contracts.

"Article 17—The term of office of members of the board shall be two years. Serving members shall be eligible for reelection.

"Article 18—Resignations and vacancies on the board shall be filled by the organizations from which they were elected.

"Article 19—Compensation and expenses of members shall be determined by the organizations they represent. All routine expenses of the board shall be divided pro rata between the organizations selecting members of the board.

"Article 20—The headquarters of the board shall be in Washington, D. C. Meetings may be held elsewhere, at the option of the board.

"Article 21—The board shall meet on the first Mondays in August, November, February and May, or upon the call of the chair.

"Article 22—Rules and regulations to cover necessary parliamentary procedure may be adopted at any regular session of the board, by a majority vote.

"Article 23—Amendments or additions to this plan may be submitted at any time to the organizations parties

to the plan for adoption, a majority to decide the questions submitted.

"Article 24—The parties hereto bind themselves, individually and severally, to abide by the decisions of the board as herein created.

"Article 25—In order to avert jurisdictional strife, it is the recommendation of the board that new materials, specialties and methods of application shall be passed upon by the board before being specified or used; provided that six members of the board shall have agreed that the subject has not been previously covered.

"The plan for the creation of the national board for jurisdictional awards in the building industry, as revised at Indianapolis, Ind., April 4, 1919, is herewith submitted to all interested organizations for adoption. As a means of stabilizing the building industry, to encourage the resumption of building operations, to conserve needed energy, to eliminate waste through the reduction or abolition of jurisdictional strife, and to create complete harmony among the several units entering into building construction, the conferees unanimously recommend the foregoing plan for approval and adoption."

Will to Succeed Lennon

Matthew Woll, of Chicago, international president of the Photo-Engravers' Union, will be the new vice-president of the American Federation of Labor, succeeding John R. Lennon, resigned. Woll's election is made a certainty by the decision of the building trades unions, which claimed the place to support him, and the lining up of other of the larger unions with headquarters in Indianapolis behind him.

It is also practically decided that William L. Hutchesson, of Indianapolis, international president of carpenters, and John J. Hyman, of Boston, head of the sheet metal workers, will be the fraternal delegates to the British trades union congress next year. Samuel Griggs and Charles C. Shay, the latter of the theatrical workers, New York, are the only candidates for

delegate to the Canadian Federation of Labor.

The practical agreement on Woll for vice-president is hailed by many of the delegates as marking the end of what had become almost a feud between the large unions having their headquarters in Indianapolis and those with headquarters in Washington and the East.

Woll has been identified with the Washington or so-called administration group. In the absence of the majority of the delegates on the brewery workers trip to Washington, little was done by the delegates to-day. To-morrow the Rev. Father Dietz, of Cincinnati, known as the labor priest, will speak in a local church on labor problems.

Mayor Hylan, who arrived last night, has been a conspicuous figure on the Boardwalk to-day, renewing acquaintances with labor men. He returns to New York to-morrow night.

Conciliation Good if It Works, Says Taylor

While heartily approving of the principle involved in the anti-strike treaty between building trades employers and workers, Ronald Taylor, of Brooklyn, president of the Building Trades Employers' Association of New York, expressed some doubt last night concerning the ability of the unions to carry out immediately all their end of the bargain.

"It is a movement in the right direction," said Mr. Taylor, "but I don't think it will work out in all its details for the present. The agreement constitutes a good start, but it is not perfect."

"It is questionable, in my mind, if some of the decisions of the jurisdictional board can be absolutely enforced. It is easy to conceive of a case where a local union in some city might be expelled and, because it was not in entire harmony with the international, the expulsion would not amount to anything. It is also doubtful whether the rules of the American Federation of Labor would permit the summary ex-

pulsion of an affiliated union or whether it would be necessary to wait for a national convention of the Federation to bring it about.

"There should be no trouble engendered by the jurisdictional board's decisions among the employers in our association, for all of us are under bonds to abide by the orders of our board of governors."

A. F. of L. Organizer Assailed by Socialist

Peterson Denies Frayne's Charge
That His Party Sympathizes
With the Russian Bolsheviks

Arnold Petersen, national secretary of the Socialist Labor Party, yesterday mailed to Senator Clayton R. Lusk, chairman of the joint legislative committee of inquiry into Bolshevism, a letter in which he assails Hugh J. Frayne, general organizer of the American Federation of Labor, who, in his testimony before the committee on Wednesday, classified the Socialist Labor Party as one of three sympathizing with the aims of the soviet government in Russia, as shown by the official publications of the Socialist Labor Party. In his letter Mr. Petersen says:

"As the national secretary of the Socialist Labor Party, and assuming that Mr. Hugh Frayne has been correctly quoted, I desire to brand Mr. Frayne's statements concerning the Socialist Labor Party as serious misrepresentations of fact.

"As to 1.—The Socialist Labor Party does not admit to membership anarchists or believers in the physical force theory, and none such has been admitted, nor are we going to admit any now or in the future.

"As to 2.—The Socialist Labor Party has nothing whatever in common with the so-called 'syndicalist' movements here or elsewhere.

"As to 3.—The Socialist Labor Party does not teach or advocate sabotage,

'dynamiting, train wrecking and arson,' or any other forms of physical force or 'direct action.' On the contrary, long before legislative bodies even dreamt of looking into such matters, the Socialist Labor Party warned the working classes of America against such methods and tactics, preaching at all times the civilized method of the ballot for settling social disputes.

"Mr. Hugh Frayne claims to have studied these questions and the various 'radical movements' in this country for eighteen years. There are but two conclusions possible: either Mr. Frayne imposes upon human credulity when he claims to have made such a study, while in reality he is an ignoramus on these questions; or he has studied for eighteen years, more or less, these important questions, in which case he possesses full information concerning the Socialist Labor Party. In the latter event he then exposes himself as a purveyor of plain, deliberate and unvarnished falsehoods. Let Mr. Frayne take his choice.

"The Socialist Labor Party is at all times ready to furnish any legally constituted body with any information concerning its principles and activities that may be desired. We desire the broadest publicity for all that we undertake. The social revolution, which we frankly advocate, cannot be the result of rat-hole activities. It must be born in the broad sunlight, in the plain sight of all men."

Colored People Sought A. F. of L. Affiliation

Frederick Moore Tells of Going
to See Gompers Twice to
Get Negroes Into the Union

"The exodus of Italians and other southern Europeans from the United States, the imminent restriction of immigration by Congress and the great need of labor during the reconstruction period have combined to bring about the action taken Friday by the Ameri-

**EXQUISITE
MODEL FROCKS**
Priced \$11 to \$59
Just Half the Usual Cost

The Maxon collection of Summer frocks is wonderfully complete. Chic town frocks of cool Taffeta-and-Georgette or Satin-and-Tricoline combinations. Blossom-like cotton frocks for the countryside. Values are amazing when one remembers that all frocks are original Model creations fresh from the showrooms of foremost designers. Rarely two alike!

can Federation of Labor convention at Atlantic City in admitting colored men to equal rights with white as labor units," said Frederick Moore, of "The New York Age," yesterday. "Even with these underlying economic causes, it has required steady and persistent work on the part of the colored people to bring about this action. More than a year and a half ago, a committee, including E. K. Jones, Dr. Robert Moton, John R. Shilady, of the National Association for the Advancement of Colored People, Emmet J. Scott and myself, went to Washington to see Samuel Gompers on the subject before the American Federation of Labor was recognized by the Federation of the colored men. We argued the matter before the executive committee. Again, a year ago, we went over the same ground with them. Mr. Gompers said that he was with us in the matter, and so was the executive

committee. Our persistence, combined with the economic causes referred to, has won the battle.

"There can be little doubt about the importance of the achievement. With the organization of the colored men of the North and South, relationships and understandings will improve, the black laborer will realize that he is more important as an industrial unit than he was before.

"With the large influx of colored labor into the Northern states during the last three years there was danger to the Federation of Labor from colored strike breakers. This danger was recognized by the Federation, and was one of the impelling causes leading to the Federation's action. With equal opportunity and equal wages and membership in the Federation, the colored man will not lend himself to strike breaking."
